EMLYON MSc Finance (Corporate Finance) graduate, class of 2026, and Financial Services Consultant at AdaptEdge Partners with an energy engineering background. Financial analysis, consolidation and economic assessment of investments, supported by an operational understanding of real assets. National Top 3 finalist in the CFA Research Challenge France.

PROFESSIONAL EXPERIENCE

Financial Services Consultant | AdaptEdge Partners

Paris | Jan. 2025 - present

- Analysed the structure of a financial group and developed a consolidation framework.
- Produced consolidated financial statements, improved inter-entity reporting and processed intra-group transactions.
- Identified financial-performance inefficiencies in transformation projects.

Petroleum Engineer | eiLink R&D (seconded to BP)

Baku | Sept. 2022 - Sept. 2023

- Economically prioritised well interventions: targets exceeded by 33%. Optimised production and assessed operational risks.
- Supervised and mentored three engineers.

Senior Petroleum Engineer | SOL (GL subsidiary)

Baku | Mar. 2022 - Sept. 2022

- Prepared production forecasts and financial projections; negotiated with suppliers and structured contracts.

Petroleum Engineer | BP

Baku | Aug. 2013 - Jan. 2021

- Optimised operations, delivering approximately €100k in drilling cost and time savings.
- Used net present value (NPV) and internal rate of return (IRR) calculations to support investment decisions.
